DETAILED ACTION

1. This communication is in response to amendment filed 2/12/03.
2. The Declaration filed on 2/3/03 under 37 CFR 1.131 has been considered but is ineffective to overcome the Surwit reference.
3. The applicants have submitted the Declaration in support of an assertion that they have invented and reduced to practice the subject matter claimed in the present application. However, the declaration and evidence in support thereof is insufficient to establish a reduction to practice prior to the effective date of the Surwit patent reference as explained below.
4. An actual reduction to practice of the invention prior to the effective date of Surwit (March 13, 1998) require that each limitation of the claimed invention be clearly defined as being present in a physical and tangible form that shows every element of the count. *Wetmore v. Quick*, 536 F.2d 937, 942, 190 USPQ 223, 227 (CCPA 1976). For an actual reduction to practice, the invention must have been sufficiently tested to demonstrate that it will work for its intended purpose, but it need not be in a commercially satisfactory stage of development. If a device is so simple, and its purpose and efficacy so obvious, construction

Art Unit: 3624

alone is sufficient to demonstrate workability. King Instrument Corp. v. Otari Corp., 767 F.2d 853, 860, 226 USPQ 402, 407 (Fed. Cir. 1985); (see also MPEP 715.02 and 715.07).

5. In the present case, the evidence submitted by the applicant fails to show each limitation of the claim as being evident in the supporting documents. For example the Declaration fail to show limitation, "configuring the portable health assistant with a protocol comprising multimedia software content for treating a disease of the patient..". It is required that each limitation of claims 1-24 be clearly shown as being disclosed by the evidence provided in support of the declaration.

6. The Declaration is also deficient because it signed by only the first inventor. The declaration must be signed by all the inventors or applicants.

7. In response to the amendment objection to the specification and claim 2 has been withdrawn. Claim rejections under 35 USC § 112 of claims 3,4, 23 and 24 and claim rejection under 35 U.S.C. § 101 of claims 23 and 24 have been withdrawn.

Art Unit: 3624

8. All claims stand rejected over Surwit as discussed in prior office action. Note that limitations of amended claims 2, 3, 4, 23 and 24 have not changed the scope of the claimed inventions and therefore the analysis presented in the prior office action in support of the claim rejection is still applicable in view of the amended claims.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3624

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
